Manage your products life cycle
and improve POS efficiency

LOOKING FOR THE RIGHT RETAIL MANAGEMENT SYSTEM APPLICATION?

Intellect RMS (Retail Management System) is an application which gives your company the tools to automate and manage your products life cycle through the retail business cycle in a centralized way:

Purchasing > Inventory > Point of sale > Sales

ALL BUSINESS CYCLE MODULES IN ONE SINGLE APPLICATION

All approvals, requests, quotations can be done through the system (upon security level setup); Brings the facility of dividing per categories any element of the work process.

Provides the following modules:

- Acquiring;
- Inventory & distribution;
- Pricing;
- Sales order;
- Sales commission & discount levels;
- Reservation;
- Quotation management;
- Suppliers history management;
- Clients history management.

EMPOWER YOUR POS

Reduces product management time and automates all the retail process.

Intellect RMS empowers your business through the ability of capturing, importing and tracking the product life cycle status through a comprehensive data history. It helps to manage information and product life cycle work flow providing POS efficiency.

Intellect RMS provides your business with the power required to track and manage your assets (warehouse & personnel optimization), fast & accurate access to suppliers, items, and customers database and history.

ACT OBJECTIVELY - NOT SUBJECTIVELY

Intellect RMS provides an automation mechanism for all work flow processes to support decision makers.

All your data and documents can be easily exported for further analysis.

Comes with a wide range of reports and KPI's analysis module. This means - fast & accurate access all your retail and POS database and history.

SECURE YOUR DATA

Intellect RMS includes a very powerful role based security module with strong processes tracking and authorization module: authorizations and access can be done anytime, anywhere (upon security levels). Reduces downtime due to external threats.

NO HIDDEN COST AND AFFORDABLE MAINTENANCE

Buying Intellect RMS, you will own the software – this means unlimited number of users & records.

It is a scalable product – quick and instant adjustment as your business grows. No extra charges for new users or extra records.

The system technology is developed on affordable solution - easy and affordable to install and maintain.

INTELLECT RMS CAN BE CUSTOMIZED UPON YOUR REQUERIMENTS

Affordable & flexible customization upon clients' requirements.*
